To Whom it May Concern,

Stefanutti Stocks was awarded the KP2 Upgrade at Base Titanium (Kenya), which kicked off in August 2017 and Completion was in April 2018.

During the Construction phase we used Heavy Industry Logistics for the following,

- Procurement of a wide variety of items
- Vehicle Rentals
- Equipment Rentals
- Container / Office Container Rentals

Matt and his team rendered an incredible service to us and assisted Stefanutti a great deal for the duration of the Project.

The level of service we received was very professional and if the opportunity ever presents itself, we will gladly use their service again.

I thanked Mat personally for his efforts and will take this opportunity again to thank him and his team for the assistance in making this a successful endeavour.

Regards

Walter Bolton
Senior Contracts Administrator
